

# A Chance for Every Child

Our monthly workshop is specifically tailored to children ages 4-8 with special needs and differences. The class exercises and activities are specifically designed to help children feel confident and proud of their movement abilities, while building strength, coordination, and rhythm.

## About The Florida Ballet

The Florida Ballet has been a leader in dance education and performance for over four decades. Founded in 1978 by Laurie Picinich-Byrd and Michael Byrd, the nonprofit organization serves the community through quality dance education, accessible community outreach opportunities, collaborative projects, and a season of professional performances.

In addition to dance education, The Florida Ballet exposes thousands of community members annually to the art of dance through community outreach initiatives including workshops, lectures, and demonstrations.

## A Chance to Dance Workshop

The Florida Ballet

**THE FLORIDA BALLET**  
JACKSONVILLE

2nd Saturday of  
each month  
10:00-11:00am

*Beginning in  
September.*

Every child deserves the chance to experience the joy of dance. The Florida Ballet is excited to partner with Wolfson Children's Hospital for the first Chance to Dance workshops!

# A Wonderful Experience!

Monthly classes will give all students the opportunity to move to classical music and enjoy fun props, dancing games, and stretches while interacting with our Conservatory student mentors. The children will have the opportunity to see a performance of *The Nutcracker* and meet the performers from The Florida Ballet!

Changing Health Care for Good.

# Partnership

The Wolfson medical professionals, Florida Ballet staff, and advanced student "mentors" all work together to ensure each child's needs are recognized
